

Bob Wiseman

Board of Directors

Representing IHACI

Bob Wiseman and the **Institute of Heating and Air Conditioning Industries, Inc.** (IHACI) are one of the original 2009 Charter members of the WHPA. He has served on the WHPA Executive Committee, the Council of Advisors, and served as Co-Chair on the HSES Committee. He is now serving a two-year term on the Board of Directors.

Mr. Wiseman has served on the Board of Directors for IHACI since 2001, is a two-time President, and has served as Chairman of the Board since 2015. He is a second-generation contractor and is currently President of Canoga Park Heating & Air Conditioning. He joined the company, originally founded by his father, in 1978, and is a respected and trusted leader with HVAC and energy efficiency organizations because of his experience. Bob's skills focus on innovative training methods, quality maintenance and installation of HVAC systems, as well as energy management.

Wiseman believes that one of the greatest challenges facing the industry is attracting, recruiting, and training HVAC technicians to the HVACR industry. HVACR is one of several trades responsible for building California's infrastructure—a leader in energy conservation and savings—and this important sector should be introduced to high school students as they begin to start making life decisions. HVACR is a solid career for future technicians.

Bob actively advocates for HVAC contractors. As the problems facing the HVAC contractors are better understood by regulators, academia, and the industry at-large, we can positively impact the future of the HVACR industry.

Bob received his B.A. in International Relations from UCLA in 1985, and he received his MBA in Business from Pepperdine University in 1989.
