

# Pepper Hunziker

## Board of Directors

### Representing Tre'Laine Associates

Pepper Hunziker has been principal consultant for **Tre'Laine Associates** since 2012. As principal consultant for Tre'Laine, she worked directly with SCE on their residential and commercial HVAC-specific programs and HVAC WE&T-specific programs in design, development, implementation, and evaluation; and she served as primary consultant to SCE on the design, development, and implementation of their statewide HVAC sector strategy program.

Pepper is serving a two-year term on the WHPA Board of Directors. She has worked with the WHPA since before 2012 and has served on many WHPA Committees and Working Groups – WE&T Committee and Working Groups, served as Chair on the WE&T Comparable Training Working Group, EBEE Committee and Working Groups, CQM Committee, two CQM 180 User Guide Working Groups, CQI Committee, RQI Committee, and the HSES Committee. She is also called by national organizations and community colleges to speak on HVAC WE&T.

Ms. Hunziker is passionate about meeting people where they are, understanding their perspectives and interests, and cultivating pathways that can facilitate their successes. She believes wholeheartedly in the value of a collective leadership approach to creating and driving innovative EE solutions. She has a strong sense of service and advocacy, making sure that theory can be applied in the field (e.g., making sure that policy, program, language, and framework are practical for “boots on the street”). She has a deep appreciation for and she values the unique capabilities, insights, and perspectives of those in the HVAC industry.

Prior to starting her own consulting firm, Hunziker was a WE&T Consultant for Percipio and Senior Learning & Development Partner with PECI. In her role with PECI, she supported the design team for the HVAC CQM program for the state of California.

From Portland State University, Ms. Hunziker received her B.A. in Applied Linguistics; a Master of Science Degree in Post-Secondary, Adult, and Continuing Education; a Master of Science Certificate in Teaching Adult Learners; and two Graduate Certificates in (1) ELearning Essentials and (2) ELearning Instructional Design.
